

[Opencart Xml Import Pro Nulled S](#)

The screenshot shows the Total Import PRO web interface. On the left is a dark sidebar with various icons. The main content area has a header "Total Import PRO" with a breadcrumb "Home / Total Import PRO". Below this is a "Load Settings Profile" section with a dropdown menu labeled "Select a profile to load" and a help icon. Below the dropdown is the text "Use Import Profiles to save your import settings" and two buttons: "Load" and "Delete". A section titled "New Import? Start here." features a vertical list of five steps: "Step 1" (green), "Step 2" (blue), "Step 3" (blue), "Step 4" (blue), and "Step 5" (blue). To the right of these steps are five corresponding actions, each with a help icon: "Fetch Feed", "Global Settings", "Adjust Import Data", "Field Mapping", and "Import". At the bottom of this section is a "View Log" button.
